1. The drawings submitted on 09/18/06 has been disapproved. The photographs must be replaced with drawings to facilitate the understanding of the invention.
2. Claim 3 is rejected under 35 U.S.C. 102 (b) as being anticipated by Pleifer (D371237) or Mainwaring et al. (D338559).

Fleifer teaches a cover having an integrated fastening means comprising a rectangular sleeve that is open at the first end and closed at the second end with a means for fastening the flap to the cover (note the Velcro).at the flap in Fig. 1.

Mainwaring also teaches a similar cover with a flap and fastening means.

Note that the cover being used with a motorcycle rack is an intended use as set forth in the previous office action.

3. Claim 3 is rejected under 35 U.S.C. 102(b) as being anticipated by Stoll (6077777) or Gray (5028472), or in the alternative, under 35 U.S.C. 103(a) as being unpatentable over Stoll or Gray. Stoll teaches a cover with a flap 34 in Figs 8 and 10. Gray teaches a cover with fastening flap 36 and 29. To the degree it is argued that the cover in either Stoll or Gray does not teach rectangular shapes. It would have been obvious to one of ordinary skill in the art to provide the cover in such shape to provide the desired shape.
4. Applicant's arguments have been fully considered but they are not persuasive. The new claim 3 does not read over the prior art of record as set forth above. Applicant is noted of the interview summary set forth the grounds for interpretations of intended use and the use of design reference as prior art under 35USC102.
